National Economic Survey & Macroeconomic Outlook 2025-2026

1. Macroeconomic Growth Indicators

The national economy demonstrated resilience in 2025, recording real Gross Domestic Product (GDP) growth of 6.8%, compared to 6.2% in the preceding fiscal period. Inflationary pressures moderated, with the headline Consumer Price Index (CPI) averaging 4.2%.

Gross capital formation expanded by 9.1%, driven by state-sponsored infrastructure investments in transportation corridors and high-speed broadband backbones.

2. Renewable Energy Transition & Fiscal Deficit

Renewable energy capacity surpassed 180 gigawatts (GW), with solar installations contributing 62% of newly commissioned power utilities. The government reiterated its target to achieve 500 GW of non-fossil energy capacity by 2030.

The central fiscal deficit for the year settled at 4.9% of GDP, meeting the statutory consolidation target established by the Fiscal Responsibility and Budget Management roadmap.
